

# Basic Steps Of CSS

- **Selector**
- **Decleration**

## Types of CSS

- **Inline css**
- **Internal css**
- **External css**

---

## Internal css

### Artificial intelligence

Artificial intelligence is the simulation of human intelligence processes by machines, especially computer systems. Specific applications of AI include expert systems, natural language processing, speech recognition and machine vision.

### cloud computing

cloud computing is the delivery of computing services—including servers, storage, databases, networking, software, analytics, and intelligence—over the Internet (“the cloud”) to offer faster innovation, flexible resources, and economies of scale.

### Metaverse

where humans, as programmable avatars, interact with each other and software agents, in a three-dimensional virtual space that uses the metaphor of the real world.
